

LEADSUITE™

STOP SEARCHING. START INVESTIGATING.

LeadSuite is your single investigative platform that unifies information from your agency's existing RMS, NCIC, third-party data, and LeadsOnline's own unique transaction data. It provides a single, searchable interface for you to quickly identify leads and connect crime patterns.

KEY BENEFITS

LeadSuite empowers you to make faster, more informed decisions, accelerating the entire investigation process from start to finish.

All-In-One Search

Instantly search across a single platform that unifies case data from all of your agency's systems—including LeadsOnline, RMS, and NCIC—to provide a comprehensive view of every case and enable seamless collaboration.

Visualize Patterns and Connections

Dynamic maps and timelines expose hidden patterns and relationships, giving you the insights to build a more informed investigative strategy.

AI-Powered Insights

Automatically prioritize cases and summarize complex files, eliminating hours of administrative work and enabling you to focus on high-value leads.

360° Suspect Profiles

Build a comprehensive profile on a person of interest, compiling their connections, behaviors, and movements to uncover their full network.

Integrates Ballistics Triage

Syncs ballistics triage results from IBIS ClearCase™ for easy tracking and more efficient investigations.

NEW

MAIN FEATURES

Identify Qualified Leads

AI-powered technology automatically surfaces qualified leads and intelligence to help advance cases faster.

Streamline Workflows

A unified view of cases from multiple systems designed to minimize clicks, reduce training time, and prevent tool fatigue.

Advanced Visualization Tools

AI-driven technology maps crimes, builds timelines, and reveals hidden connections so you can see the bigger picture faster.

Secure, Real-Time Collaboration

Enhance inter-agency cooperation and streamline case management with collaboration tools that provide transparent access to case information.

Advanced Persons Search

Enriched third-party data insights provide detailed profiles on the person of interest including images, location data, transactions, and possible connections to other cases.

THE POWER OF LEADSUITE

10.3 Million

Unique Cases with a Subject Associated
